What is Yoppa

Me and Baran Güneysel (Senior interaction design student at ZHdK) decided to combine some of our ideas and offer a service, so the yoppa brand was formed.

Our main goal was to offer our customers quality vegan meals, whose menu changes every day, at a very affordable price. At the same time, we planned to make deliveries in an environment friendly way and to plant a tree in a region that the customer wants every time a meal is ordered.

We have designed the website [yoppa](https://yoppa.ch) and a few marketing posts
